Summary	Undergraduate Mathematics student with a strong foundation in mathematics, statistics, and Python programming. Experienced in data analysis, machine learning, and feature engineering through academic and personal projects. Seeking internship or remote opportunities in data science, AI, or software development.
Education	National Higher School of Mathematics 2022-2028 4th year undergraduate in applied math specialized in cryptography, security and coding.
Expérience	Discovery Intern : BNA june-2025 - Shadowed professionals in the Credit, DPAC, and Commercial Promotion departments. - Observed the customer loan process, document verification, and administrative workflows. - Gained exposure to banking regulations, customer service practices, and interdepartmental collaboration. - Developed a better understanding of financial operations and workplace communication.
Projects	Data Science Project - Developed end-to-end Python projects involving data cleaning, feature engineering, regression, model evaluation, and data visualization using Pandas, NumPy, Scikit-learn, and Matplotlib. Kaggle Competition Participation - Built predictive machine learning model, performed feature engineering and hyperparameter tuning, and evaluated model performance on real-world datasets using Scikit-learn and XGBoost. Garage Automation System Python (OOP) - Designed and implemented a Java application using object-oriented programming principles to automate garage operations, including vehicle management, user interactions, and system workflows. Implemented numerical methods in MATLAB

	• Implemented classical optimization algorithms, including Golden Section Search, Newton's Method, Gradient Descent, and advanced line search techniques (Armijo, Wolfe, Goldstein, and Secant). • Evaluated convergence and optimization performance using benchmark functions, with custom MATLAB implementations and visualization tools.
Skills	Technical Skills • Python • R • HTML, CSS, Bootstrap • Git & GitHub • Microsoft Excel Professional Skills • Professional Communication • Teamwork & Collaboration • Brainstorming & Idea Generation • Public Speaking • Time Management • Adaptability • Critical Thinking • Analytical Problem Solving Additional Skills • Video Editing • Photography • Voice-Over Recording • 3D Modeling
Certifications	EFset certification • C1 in English language
